

Presentation (by Leonardo Messinese)	9
Introduction (by Gianfranco Basti, Francesco M. Ferrari)	13
Papers	29
Section I: Scientific Cosmology and Quantum Physics	31
1. Gianfranco BASTI, <i>Foreword: a chronology of the universe evolution</i>	33
2. Silvio BERGIA, <i>Celebration for 100 years of the General Theory of Relativity</i>	53
3. Cesare BINI, <i>Open problems in Fundamental Physics</i>	73
4. Marco BERSANELLI, <i>A new view on the early universe</i>	85
5. Antonio CAPOLUPO, Gaetano LAMBIASE, Giuseppe VITIELLO, <i>Cosmic microwave radiation, neutrino masses, and fractal-like self-similar structure of the thermal vacuum</i>	103
Section II: Ontology and Metaphysics of Nature	115
6. Gianfranco BASTI, Francesco M. FERRARI, <i>The dual paradigm in quantum physics and in its ontology. I Part: mathematics and physics</i>	117
7. Gianfranco BASTI, Francesco M. FERRARI, <i>The dual paradigm in quantum physics and in its ontology. II Part: logic and ontology</i>	163
8. William E. CARROLL, <i>Time and Creation: Thomas Aquinas and Contemporary Cosmology</i>	195
9. Mario PANGALLO, <i>Formless matter and creation from nothing</i>	223
10. Marcelo SÁNCHEZ SORONDO, <i>Common esse and Subsistent Esse: the degrees of created causality</i>	251
Section III: Epistemology and History of Science	269
11. Owen GINGERICH, <i>Galileo, the impact of the telescope and the birth of modern astronomy</i>	271
12. Enrico BERTI, <i>From physical to metaphysical cosmology: the Aristotelian path</i>	281
13. Marcello PERA, <i>Science, religion, and the doctrine of the two Books</i>	295
AQUINAS, Year LXIII, 2020/I-II, pp. 435-436	435

14. Vincenzo FANO, Giovanni MACCHIA, <i>Historical-epistemological considerations on the cosmological principle</i>	309
Section IV: Theology and Science	325
15. Innocenzo CARDELLINI, <i>The tales of creation (Gn 1-3). A teaching in life for mankind</i>	327
16. Lubomir ŽAK, <i>The reception of General Relativity in Pavel A. Florenskij</i>	347
17. Charles MOREROD, <i>From physical cosmology to the theological cosmology. The analogy path</i>	361
18. Rino FISICHELLA, <i>Science, philosophy, and theology in dialogue on cosmology: is a synthesis possible?</i>	381
19. Georges COTTIER, <i>"Causa Prima" and "Causae Secundae"</i>	393
20. Gianfranco RAVASI, <i>Afterward : biblical cosmology</i>	405
Newsletter by Philip Larrey	413
Reviews	417
Pier Luigi GENTILI, <i>Untangling Complex System. A Grand Challenge for Science</i> [F. Marcacci]	419
Flavia MARCACCI, <i>Cieli in contraddizione. Giovanni Battista Riccioli ed il terzo sistema del mondo</i> [P. Capitanucci]	423
Received books	429
Index of the 2020 Issue	435
